An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with N. Scott Pierce on 12/22/04.

The application has been amended as follows:

Claim 1, line 7, cancel "and".

Claim 1, line 7, after the end of step b), insert the new step as follows:

--c) pressing, wherein at least about 90 percent by weight of the hollow bodies are intact following pressing; and--

Claim 1, line 8, cancel "c)" and insert --d)--.

Cancel claim 8.

Claim 9, line 1, cancel "8" and insert --1--.

Claim 10, line 1, cancel "8" and insert --1--.

Cancel claim 14.

The following is an examiner's statement of reasons for allowance: The claimed invention is novel over the prior art of record because said art fails to teach or suggest the limitations of the instant claims. The rejections based on Giles, Jr. et al. are withdrawn based on applicant's amendment on 10/4/04 which includes the amount of alkali metal oxides. After

further review of the reference, the reference only teaches a maximum amount of alkali metal oxides of 2.5% and this does not read on about 5. Although about might permit some tolerance, it is the examiners position that a difference of 2.5 is not within the scope of "about". In addition, in view of applicants statement of common ownership at the time the invention was made, the obviousness rejections based on Carman et al. and the WO reference are withdrawn. These references fails to teach the limitation added to claim 1 (claim 16, as originally filed, also contains this limitation) by way of the examiners amendment.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
